《办公室里的“电邮快递员”》

现代办公室，大家基本都用邮件或者即时通讯工具来沟通工作，键盘上说不清楚的，才面对面沟通。可是，有这么一类人，他们会先给你发邮件，然后立马跑到你桌边催你查邮件，并且要你立即给个回复。

Email courier is an individual who gets out of their chair and approaches someone's desk or workstation in a work environment almost immediately after sending them an email, usually to make sure that the email has been received and that they can get a reply right away.

Email courier??“?????”?

For example:

Bill: I just sent you an email. Did you get it?

Bill: ????????????????

Mike: Probably, I haven't checked.

Mike: ?????????????

Bill: Can you check?

Bill: ???????

Mike: Uh yeah, looks like I got it.

Mike: ????????

Bill: Thoughts?

Bill: ??????

Mike: My immediate thoughts are you're an email courier and a douchebag.

Mike: ??????????????????????????
