

## 《单词百科:transcriptional是什么意思?transcriptional怎么发音?transcriptional的解释和用法》

英语单词transcriptional是什么意思?transcriptional怎么读?transcriptional怎么发音?简答网为您整理了transcriptional的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

### transcriptional怎么读

transcriptional的读音:[træns krɪ p ʃ n( )l]

### transcriptional的意思

1、转录的;

### transcriptional的双语例句

1、 Our data suggest that these histone modifications may act cooperatively to prepare chromatin for transcriptional activation.

我们的数据表明,这些组蛋白修饰可能共同作用于染色质的转录激活.

2、 The effect of core binding factor 1 on transcriptional regulation of mouse dentin sialophosphoprotein.

核心结合因子 1对牙本质涎磷蛋白基因转录调控的影响.

3、 Deciphering the modularity of transcriptional networks is a principle approach to understand this complex biological system.

阐明基因调控网络的模块化,是了解复杂生物系统的主要方式.

4、 AIM : To clone fibronectin ( FN ) promoter and identify its transcriptional activity combined with SV 40 enhancer.

目的: 克隆纤维连结蛋白 ( FN )

启动子和检测其转录活性,并初步研究增加SV40增强子对其转录活性的影响.

5、 These translocation domains exist in bacterial toxin, viral proteins, transcriptional factors, homodomain and synthetic peptides.

这些转运结构域广泛的存在于毒素蛋白、病毒蛋白、转录因子、同源结构域及合成肽当中.

6、 The transcriptional activation activity of GR was evaluated through method of relative activity of luciferase.

相对荧光素酶活性法检测gr转录激活功能的变化.

7、 The DNA segments which have certain regulatory function in genomic sequences are called transcriptional regulatory elements.

基因组中具有调控功能的DNA序列片段可称为转录调控元件.

8、 Overview of Transcriptional Regulation . Lambda Phage.

7转录调节概论. 噬菌体.

9、 Transcriptional activation activity of variant was evaluated through methods of relative activity of luciferase.

相对荧光素酶法检测转录激活活性.

10、 Objective : To assay the transcriptional activation effect of prohibitin in yeast two hybrid system.

目的: 检测抗增殖蛋白在酵母双杂交系统中是否具有转录自激活作用.

11、 Our results indicate that MeJA has a complex signaling network involving a large-scale transcriptional reprogramming.

我们的结果显示茉莉酸有一种复杂的讯号网路,会牵涉大规模的转录重整.

12、 C-ski is transcriptional co-repressors that inhibit transforming growth factor-beta ( TGF-beta ) signaling through interaction with Smad 3, Smad 2 protein.

同时,近些年研究表明TGF -beta

信号系统是导致瘢痕形成的重要原因,而Smad3和Smad2做为TGF -beta途径重要的信号因子,在瘢痕形成中具有重要作用,因此,抑制Smad3和Smad2成为了减轻瘢痕形成的新途径.

13、 Identification of Potential Transcriptional Regulatory Elements by Comparison of Human and Pufferfish Genomic Sequences.

比较河鲀与人类基因体序列来定出可能的转录调节要素.

14、 The Study of the Transcriptional Function of Core Binding Factor 1 on Mouse Dentin Sialophosphoprotein.

核心结合因子 1对鼠牙本质涎磷蛋白基因转录调控的研究.

以上是简答网为您整理的transcriptional怎么读的相关信息,希望对大家有所帮助。查看更多关于transcriptional的用法、transcriptional的释义、transcriptional的相关详情请点击：<https://dict.jiandongshicai.cn/transcriptional>
