

《单词百科:centromeric是什么意思?centromeric怎么发音?centromeric的解释和用法》

英语单词centromeric是什么意思?centromeric怎么读?centromeric怎么发音?简答网为您整理了centromeric的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

centromeric的意思

1、[医]着丝粒的;

centromeric的近义词

1、kinetochore n.动粒，着丝粒，着丝点;原动体;

centromeric的双语例句

1、The centromeric regions of almost chromosomes in Chinese White rabbit were darkly stained, but which varied in size.

中国白兔核型中几乎所有染色体的着丝粒区均呈深染，大小有异；

2、X chromosome centromeric alpha satellite DNA variation in Klinefelter's syndrome patients and their parents

Klinefelter综合征及双亲X染色体着丝粒区 -卫星DNA变异研究

3、Detection of 13/ 17 Robertsonian Translocation Chromosome Centromeric DNA by FISH in the Domestic Pig

家猪13/17罗伯逊易位染色体着丝粒DNA的FISH检测

4、The Variation in Centromeric Dots (Cd) of Human Chromosome in Different Ages

正常人各年龄组染色体着丝粒点 (Cd) 研究

5、A Study of Correlation between the Change of Chromosome Centromeric Dots and Habitual Abortions

染色体着丝点结构变化与习惯性流产的关系

6、The SCE frequency in each centromeric region was very high and accordance with the relative length of each chromosome.

着丝粒区的SCE相对很高，按染色体的相对长度分布。

7、DNA, respectively. Information DNA Relation between Variation of Centromeric Alpha Satellite DNA on Human X Chromosome and Aneuploidy

人类X染色体着丝粒区 卫星DNA变异与非整倍体关系研究

8、Analysis of 5S rDNA and Centromeric Sequences in Rice by Fiber-FISH

水稻5S rdna和着丝粒顺序的Fiber-FISH分析

9、Even though the recombination rate is always low in the centromeric regions, some exceptions existed.

尽管一般认为着丝粒区域重组率较低，但也存在例外。

10、Study on chromosomal centromeric dots in couples with spontaneous abortion

自然流产夫妇染色体着丝粒点的研究

11、 The development of molecular biology and genome project have fostered much interest in the structure and function of centromeric heterochromatin.

分子生物学技术和基因组计划的发展，促进了对异染色质分子本质的研究。11着丝点C-带异染色质化的程度较高。Y为完全结构异染色质组成。

以上是简答网为您整理的centromeric怎么读的相关信息，希望对大家有一定的帮助。查看更多关于centromeric的用法、centromeric的释义、centromeric的相关详情请点击：<https://dict.jiandongshicai.cn/centromeric>
