

《单词百科:biocatalysis是什么意思?biocatalysis怎么发音?biocatalysis的解释和用法》

英语单词biocatalysis是什么意思?biocatalysis怎么读?biocatalysis怎么发音?简答网为您整理了biocatalysis的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

biocatalysis怎么读

biocatalysis的读音:[bi':əʊkətələsɪs]

biocatalysis的意思

1、n.生物触媒[作用], 生物催化[作用];

biocatalysis的双语例句

1、Lack of an integrative R & D platform was the bottleneck of the biocatalysis technology transfer.

缺乏集成 研发 平台成为生物催化技术转移的瓶颈.

2、Microbial reactions play key roles in biocatalysis and biodegradation.

在生物催化和生物降解中微生物反应起了关键的作用.

3、When considering biocatalysis, terms like kinetic racemic resolution or chiral syntheses immediately come to mind.

提到生物催化, 我们通常会想到外消旋物的动力学拆分和手性合成.

4、Chiral biocatalysis has already been a classical method in preparation enantiomerically pure compounds.

手性生物催化已成为制备光学纯化合物的经典方法.

5、Biocatalysis has many advantages such as effective activator , mild reaction, high selectivity and purity.

生物催化具有反应条件温和 、 高度选择性、产物纯度高等优点.

6、An review of the recent progress of biocatalysis systems with high solid liquid ratio was presented.

介绍了高固液比生物催化体系研究及应用的现状.

7、This course provides a brief introduction to the field of biocatalysis context of process design.

本课程将以程序设计观点提供生物触媒领域的简介.

以上是简答网为您整理的biocatalysis怎么读的相关信息, 希望对大家有一定的帮助。
