

《单词百科:pgg是什么意思?pgg怎么发音?pgg的解释和用法》

英语单词pgg是什么意思?pgg怎么读?pgg怎么发音?简答网为您整理了pgg的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

pgg怎么读

pgg的读音:['pi:d 'i:d 'i:]

pgg的意思

- 1、abbr.[医][=polyclonal gamma globulin]多克隆 球蛋白;
- 2、葡萄糖;德语专业四级;高等学校德语专业四级考试;德语专业四级考试;德语专四

pgg的双语例句

- 1、Conclusions-Periadentital administration of PGG hinders the development of AAA in a clinically relevant animal model.

结论:在临床相关的动物模型中,在外膜周给予PGG可以阻碍AAA的发展.

2、 The inhibiting effect was most significant for PGg.

其中，PGg型膜质材料制成的包膜肥料抑制氮素挥发效果最为明显，是理想的包膜材料。

3、 Through the dynamic test and the numeric analysis of the isolator, it is proved that the PGG isolator has excellent isolation performance for blast shock and vibration.

经冲击台试验的检验和数值计算分析比较，证明PGG隔震器具有优良的爆炸冲击震动隔震性能。

4、 On the basis of the static test of the PGG isolator, the nonlinear rigidity model in horizontal and vertical directions is presented.

根据PGG隔震器的静力试验，建立了PGG隔震器水平向和垂直向的非线性刚度模型。

5、 Nationalization Research of Assembly of Remote Control Motor in PGG 200 Model Speed Governor

PGG200型调速器遥控电机总成国产化研究

6、 The Study on Investment Plan and Product Structure Adjustment of PGG CSST

攀成钢公司产品结构调整与投资策划研究

7、 Pot experiments were conducted with three kinds of coated slow released fertilizers (PG、 PGg、 PGf) which developed by researchers to study the effects of fertilizers on the growth of upland rice.

对自行研制的3种包膜缓释肥料（PG、PGg、PGf）的肥效进行旱稻盆栽试验。

8、 In conclusion, The effect of PGg coated fertilizer is the best, considering from diminishing the cost of coated fertilizer, improving fertilizer efficiency, reducing ecological environment pollution.

总之，从降低包膜肥料成本，提高肥料利用率，减少施用化学肥料对生态环境造成污染的角度出发，PGg型包膜肥料效果最好。

9、 PGG could have repressed the transcription activity of oncogenic transcription factor NF- B to down-regulate the expression of apoptosis-inhibitory genes, finally triggered endogenous caspase apoptosis pathway death in ovarian cancer cells.

PGG可能通过抑制细胞内致癌转录因子NF- κ B的活性，下调其凋亡抑制基因的表达，诱导细胞进入内源性Caspase凋亡途径，从而导致细胞死亡。

10、 It was found that with the increase of PGG concentration, the interaction of PGG with HSA has mainly caused the change from the α -helix structure to β -turn and random coil structure.

随着药物浓度的增加，PGG和HSA之间的相互作用主要使HSA的二级结构发生了由螺旋向 β 转角和无规结构的转化。

11、 The crop has the biggest biomass production treated with PGg coated fertilizer.

收获期总生物量PGg型包膜肥料处理的最高。

12、 The dry rice pot experiment shows that the coated fertilizer of PG, PGg and PGf can improve the nitrogen use efficiency respectively 1.5%, 7.5% and 4.7% compared with the common compound fertilizer.

旱稻盆栽试验结果表明，PG、PGg、PGf三种包膜肥料分别比未包膜肥料的氮素利用率提高了1.5%、7.5%、4.7%。

13、 Analyze and Redesign the Payment System of PGG CSST

攀成钢公司薪酬体系分析及再设计

14、 PGG is an active ingredient in plants that are commonly used in Chinese medicine to treat inflammation.

PGG是从治疗炎症的中药采用的常用植物中提取出的一种活性成分。

15、 Conclusion PGG show an anti-endotoxin effect in vitro, which may be associated with its ability to combine and neutralize endotoxin.

结论PGG可通过对LPS的结合及中和作用，在体外发挥拮抗LPS的作用。

16、 The volatilization experiments manifest the restrain to nitrogen volatilization of coated fertilizer is apparent. Compared with uncoated fertilizer CK, the nitrogen volatilization of PG, PGg, PGf coated fertilizer decrease by 18.1%, 26.0%, 19.3% respectively.

挥发试验结果表明，包膜肥料对抑制氮素挥发具有明显的作用，PG、PGg、PGf与CK相比，氮素挥发总量分别减少了18.1%、26.0%、19.3%。

17、 Conclusion: Through inducing cell cycle retardation in cell cycle and apoptosis, PGG can inhibit proliferation of ovarian carcinoma cells.

结论PGG能抑制卵巢癌细胞的体外增殖，其机制涉及PGG诱导细胞周期S-期阻滞与诱导细胞凋亡。

18、 Interaction of 1,2,3,4,6-penta-O-galloyl-D-glucopyranose (PGG) with human serum albumin (HSA) has been studied by Fourier transform infrared (FT-IR) and fluorescence spectroscopic methods.

应用红外光谱和荧光光谱方法研究了人血清白蛋白（HSA）与 1,2,3,4,6五O倍酰D葡萄糖（PGG）的相互作用。

以上是简答网为您整理的pgg怎么读的相关信息，希望对大家有一定的帮助。查看更多关于pgg的用法、pgg的释义、pgg的相关详情请点击：<https://dict.jiandongshicai.cn/pgg>
