

《单词百科:tibialis是什么意思?tibialis怎么发音?tibialis的解释和用法》

英语单词tibialis是什么意思?tibialis怎么读?tibialis怎么发音?简答网为您整理了tibialis的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

tibialis怎么读

tibialis的读音:[ˈt b l s]

tibialis的意思

1、[医] 胫骨肌，胫骨的;

tibialis的相关词组

1、Tibialis anterior 胫骨前肌;

tibialis的双语例句

1、The earth electrode was inserted from distal proximal limb into gastrocnemius muscle around tibialis anterior muscle.

接地电极从肢体远端向近端插入腓肠肌临近胫前肌处.

2、Research on the surface EMG in tibialis anterior and m. gastrocnemius of the hemiplegic gait during 10m free walk

10m自由步行偏瘫步态胫前后肌群的表面肌电图研究

3、Study on muscular architecture and distributions of intramuscular nerves of the muscle tibialis anterior in rabbit

家兔胫骨前肌的肌构筑和肌内神经分布

4、Treatment for drop-foot with slinging tibialis anterior and extensor digitorum longus

胫前肌及趾长伸肌腱悬吊治疗足下垂

5、Application of the tibialis anterior muscle flap in repairing the soft tissue defect and tibia osteomyelitis

应用胫前肌瓣修复胫骨骨髓炎合并软组织缺损

6、The average occurrence of type I fiber is about 70 in both the superficial and deep parts of the m tibialis anterior.

结果表明，胫骨前肌浅部和深部 I 型纤维均占70%左右；

7、Antibody of CGRP was labeled clearly at the nerve terminals and motor end plate in the normal tibialis anterior muscle.

在正常胫前肌中可见神经末梢及运动终板均被CGRP抗体清晰标记。

8、In the study, the scientists focused on the tibialis anterior muscle, located on the front of the shin in humans.

在该研究中研究者主要关注胫骨前肌，位于人类的胫骨前方。

9、Objective To evaluate effect of ultrasound contrast agent on expression of plasmid green fluorescent protein (GFP) in tibialis anterior muscle of Wistar rats.

目的评价诊断超声照射下微泡造影剂对绿荧光蛋白 (green fluorescent

protein , GFP) 质粒在Wistar大鼠胫前肌中表达的作用。

10、 It was found coincidentally following the detection of hypopharyngeal carcinoma. The earth electrode was inserted from distal to proximal limb into gastrocnemius muscle around tibialis anterior muscle.

我们提出一下咽癌同时合并有前臂皮肤远处转移之病例。接地电极从肢体远端向近端插入腓肠肌临近胫前肌处。

11、 Applied anatomy of the tibialis anterior muscle flap

胫骨前肌瓣的应用解剖

12、 The tibialis anterior of the back leg dorsiflexes the ankle, drawing it towards the shin.

后腿的胫骨前使脚踝关节背曲，把它向胫骨的方向提。

13、 CONCLUSION: Severely cryodamaged tibialis anterior muscle in rats can be used for the animal models of transplanted myoblast.

结论：大鼠胫前肌深度冻伤模型适合作为成肌细胞移植的动物模型。

14、 Changes in H Wave of Evoked EMG in Soleus Muscle during Tibialis Anterior Muscle Fatigue and Its Mechanism

胫骨前肌疲劳时比目鱼肌诱发肌电图H波的变化及其机制探讨

15、 Electromyogram showed that the regenerated nerve has innervated tibialis anterior already.

肌电显示再生神经已支配胫骨前肌的运动。

16、 Rats received injection of myoblasts in the right-side tibialis anterior muscle were taken as the right-side myoblast group.

右侧胫前肌注射以F12培养基为载体的成肌细胞为右侧成肌细胞组；

17、 Measurement of the single muscle fiber action potentials and jitter value in tibialis anterior muscles of rabbits in situ

家兔在体胫骨前肌单纤维动作电位及颤抖（jitter）值的测定

18、Conclusions The tibialis anterior muscle and deep fascia flaps possess regular vasa vasorum and abundant vascularity.

结论胫骨前肌肌筋膜瓣解剖血管恒定，血运丰富。

以上是简答网为您整理的tibialis怎么读的相关信息，希望对大家有一定的帮助。查看更多关于tibialis的用法、tibialis的释义、tibialis的相关详情请点击：<https://dict.jiandongshicai.cn/tibialis>
