

《感人一幕！不只救人 消防员火场氧气罩救仓鼠》

U.S. firemen completed a rescue with a difference last week - by saving four trapped hamsters using tiny oxygen masks.

The stricken pets were caught in a mobile home fire in Lacey, Washington and faced suffocating in the blaze before fire crews stepped in.

??

Heroic firefighters got into the blazing home and pulled out five trapped rodents, before treating them with miniscule hamster oxygen masks to bring them back to life.

They used oxygen and first aid to treat Oreo, Madonna and her three unnamed hamster babies, having brought the fire under control.

Sadly, one of the babies didn't survive - but the other four critters made it through thanks to the fire crew's unlikely

rescue operation.

According to KOMO News in Seattle, there were no people inside the mobile home during the fire, which is thought to have been caused by a faulty clothes dryer.
