triangulation怎么读

triangulation的读音:[tra æ gju le n]

triangulation的意思

1、n.三角测量,分成三角形;推论;

triangulation的双语例句

1、We have found by experience that distance can be measured in another fashion : by triangulation.

我们曾经凭经验发现可以用另一种方式来测量距离:即用三角法.

2、Triangulation still constitutes the framework of most existing surveys.

现有的绝大多数测量控制网仍由三角测量系组成.

3、The algorithms of Delaunay triangulation are the main algorithms when establishing DEM.

Delaunay三角剖分算法是构建数字高程模型(DEM)的主要算法.

4、How are GPS signals encoded to allow precise triangulation?

全球定位系统的信号怎样编码,以作准确的三角测量?

5、A heuristic strategy is presented to solve the point location problem in spherical triangulation mesh.

提出了一种适用于球面三角形网格的启发式点定位策略.

6、It is divided into two ways of string arrow lead SAL and lateral triangulation lead (LTL).

精密导线法分为边角导线法和弦矢导线法,是监测水库拱坝水平位移的重要方法.

7、Add the unit UPhysics 2 DPolygonTool , the segmentation of an arbitrary polygon (triangulation).

添加了单元UPhysics2DPolygonTool,实现任意多边形的细分化(三角化).

8、The triangulation of unorganized points on a surface plays a important role for surface reconstruction.

曲面上散乱点的三角剖分在曲面重建中发挥着重要作用.

9、Generally a planar triangulation method is used to enclose the unmatched contours.

通常,对末端轮廓都是以平面三角剖分封闭端面.

10、And using traditional surveying methods, such as triangulation, researchers came up with the new figures.

在使用传统的测量方法上,例如三角测量,研究人员提出了新的数据.

11、 Usually for a precise survey control points are established by triangulation.

通常对于精确的测量,控制点是根据三角网来定位的.

12、 We must invent an extension of the idea of triangulation.

我们必须把三角法这个观念加以引伸.

13、 I will then create a Delaunay triangulation from these points and plot it (blue triangles).

用这些点构建狄劳尼三角 (蓝色三角形).

14、 Research has been done on the measurement of surface profile using the laser triangulation method.

对激光三角测量法应用于表面形貌的检测进行研究.

15、 An approach of texture mapping based on triangulation is presented.

摘要提出一种基于三角划分的纹理映射算法.

16、 Existing continental triangulation systems also still need to be adjusted.

大陆上的现有三角测量系统还须平差.

17、 Types of industrial clusters in China are identified to triangulation method and relative principles.

根据三角形化方法及相关原则,对中国产业集群的类型进行识别.

18、 It uses these distances to accurately determine its position, by a geometrical process called triangulation.

它利用这些距离通过所谓三角测量的几何处理精确地确定导弹的位置.
