

《人工智能大发展 50%职业未来将消失》

From self-driving cars to carebots for elderly people, rapid advances in technology have long represented a potential threat to many jobs normally performed by people.

??

But experts now believe that almost 50 per cent of occupations existing today will be completely redundant by 2025 as artificial intelligence continues to transform businesses.

????????????????????????????????2025????50%????????????

A revolutionary shift in the way workplaces operate is expected to take place over the next 10 to 15 years, which could put some people's livelihoods at risk.

???10-15????????????????????????????????

Customer work, process work and vast swathes of middle management will simply 'disappear', according to a new

report by consulting firm CBRE and China-based Genesis.

“CBRE和Genesis的研究报告指出，到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

“Experts predict that 50 per cent of occupations today will no longer exist by 2025 as people will take up more creative professions,” said Martin Chen, Chief Operating Officer of Genesis.

Genesis的研究报告指出，到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。

“This means that jobs will evolve and so will real estate development.”

“到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

Workspaces with rows of desks will become completely redundant, not because they are not fit for purpose, but simply because that purpose no longer exists, according to the report.

“到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

“The next fifteen years will see a revolution in how we work, and a corresponding revolution will necessarily take place on how we plan and think about workplaces,” said Peter Andrew, Director of Workplace Strategy for CBRE Asia Pacific.

CBRE的研究报告指出，到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。

A growing proportion of jobs in the future will require creativity intelligence, social skills and the ability to leverage artificial intelligence.

“到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

“And for most people that will be a route to happiness and fulfilment,” the report states.

“到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

“For many of us, artificial intelligence will be a tool to undertake tasks of a scale and complexity that were once unimaginable but which are now eminently possible and hugely rewarding.”

“到2025年，50%的现有职业将不再存在，因为人们将从事更多创造性的职业。”

The report - Fast Forward 2030: The Future of Work and the Workplace - is based on interviews with 200 experts,

business leaders and young people from Asia Pacific, Europe and North America.

?????2030????????????????????????????200????????????????????

Data in the US suggests that technology already destroys more jobs than it creates, as GDP has been able to grow faster than employment since 2000.

????????2000????GDP??

But the report states: 'Losing occupations does not necessarily mean losing jobs – just changing what people do.'
