

## 《单词百科:polycondensation是什么意思?polycondensation怎么发音?polycondensation的解释和用法》

英语单词polycondensation是什么意思?polycondensation怎么读?polycondensation怎么发音?简答网为您整理了polycondensation的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

### polycondensation怎么读

polycondensation的读音:[p l k nden'se n]

### polycondensation的意思

1、n.缩聚(作用);

### polycondensation的双语例句

1、The amelioration of the traditional method of the PLA melt polycondensation is also discussed.

综述了催化剂对聚乳酸熔融缩聚的影响,以及对乳酸熔融缩聚传统方法的改进.

2、 Polycondensation catalyst may has bad effect on polyester afterprocessing properties.

缩聚催化剂会对聚酯后加工性能产生不良影响.

3、 A novel furan resin was synthesized by polycondensation between furfuralcohol and furfural.

用糠醇和糠醛缩聚制备了新型呋喃树脂.

4、 The kinetics of nylon-1010 polycondensation at earlier stage in an open system was studied.

研究了尼龙1010盐敞开系统熔融缩聚的前期动力学.

5、 This paper introduces the application of domestic potassium-iodide in the continuous polycondensation of nylon 66.

介绍了国产碘化钾添加剂在尼龙66连续缩聚反应中的应用.

6、 The key equipment in polycondensation phase of non-phosgene process was emphatically introduced.

同时,介绍了非光气法缩聚阶段的关键设备.

7、 The esterification, polyesterification , polycondensation and the formation of diethylene glycol ( DEG ) reaction kinetic parameters were obtained.

获得了酯化反应、酯化缩合反应、缩聚反应以及二甘醇生成反应的动力学参数.

8、 The shaft seal leakage, judgement and emergency measures of the final polycondensation reactor was introduced.

介绍了终缩聚反应器轴封泄漏的现象、判断和应急措施.

9、 Staring from D , Llactic acid , poly ( DLlactic acid ) ( PDLLA ) was directly synthesized through melt polycondensation.

以DL-乳酸为原料,通过熔融聚合法直接合成外消旋聚乳酸 (PDLLA).

10、 The N-methyl-2-pyrrolidone is chosen as polycondensation media and toluene as carrier of water.

选择N - 甲基 -2- 吡咯烷酮为反应介质,甲苯为带水剂.

11、 It is mainly synthesized by two chemical ways: ring-opening polymerization and direct polycondensation.

合成聚苹果酸的化学方法主要有开环聚合法与直接聚合法.

12、 Organic silicate is prepared by Quaternizing, Hydrosilylation addition and Balanced or Polycondensation reaction.

有机硅季铵盐是通过季铵化, 硅氢化加成和平衡或缩聚等反应制得.

13、 Novel controlled releasing polythiourea microcapsules were prepared from terephthaloyl diisothiocyanate and o-phenylenediamine by interfacial polycondensation.

以对苯二甲酰异硫氰酸酯和邻 苯二胺  
为原料通过界面缩聚法合成了聚硫脲缓释微胶囊.

以上是简答网为您整理的polycondensation怎么读的相关信息, 希望对大家有一定的帮助。查看更多关于polycondensation的用法、polycondensation的释义、polycondensation的相关详情请点击：<https://dict.jiandongshicai.cn/polycondensation>
