

《单词百科:polymerization是什么意思?polymerization怎么发音?polymerization的解释和用法》

英语单词polymerization是什么意思?polymerization怎么读?polymerization怎么发音?简答网为您整理了polymerization的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

polymerization怎么读

polymerization的读音:[, p ɒ l i m ə r a ɪ ' z e ɪ ʃ n]

polymerization的意思

1、n.聚合;多项式;

polymerization的近义词

1、polymerisation n.聚合作用, 聚合;聚合反应;

polymerization的双语例句

1、Anhydride-type curing agents require the application of heat to promote polymerization.

酸酐类固化剂则要求加热以促进聚合反应.

2、The self-crosslinking acrylate printing adhesive was synthesized by emulsion polymerization.

采用乳液聚合法合成自交联型丙烯酸酯类印花粘合剂.

3、ACR resin with multi-layer core-shell construction was synthesized by multi-stage emulsion polymerization.

采用多步乳液聚合方法合成多层核壳结构的ACR树脂.

4、These butyl radicals bring about a rapid polymerization of styrene.

这些丁基自由基促使苯乙烯聚合速度加快.

5、The particles are preferably prepared by the limited coalescence polymerization technique.

这种颗粒,最好由有限聚结聚合技术来制备.

6、Research progress on the cationic polymerization of polyacrylamide is reviewed.

叙述了阳离子聚丙烯酰胺聚合工艺的研究进展.

7、Impurities that promote deterioration of polymers can be foreign materials, such as residues from polymerization catalysts.

促使聚合物劣化的杂质可能是外加的物质,如残存的聚合用催化剂.

8、Ketenes, notably dimethyl ketene, readily undergo oligomerization and polymerization.

烯酮,特别是二甲基烯酮,很容易齐聚和聚合.

9、In the polymerization systems studied, segmental rearrangement is the important rate-determining phenomenon.

在已研究过的聚合体系中链段重排是重要的速度决定步骤.

10、The research development in catalysts for Syndiotactic polymerization of styrene is re-viewed.

本文综述了制备 间规聚苯乙烯 用催化剂的研究进展.

11、A hardening agent mixed with the monomer will induce polymerization.

固化剂与这种单体混合将引起聚合反应.

12、In general ionic polymerization can be initiated through acidic or basic compounds.

一般来讲,离子型聚合可以被酸类或碱类化合物所引发.

13、It is the reverse of the propagation step in addition polymerization.

这一过程是加聚反应历程中链增长步序的逆过程.

14、Plasma-polymerization of ethylene gives films of complex, uncertain structure.

乙烯的等离子聚合得到复杂的,无固定结构的薄膜.

15、Vinyl chloride polymerization method, solution polymerization, bulk polymerization, emulsion and suspension polymerization.

氯乙烯的聚合方法,有溶液聚合、本体聚合、乳液聚合和悬浮聚合.

以上是简答网为您整理的polymerization怎么读的相关信息,希望对大家有所帮助。查看更多关于polymerization的用法、polymerization的释义、polymerization的相关详情请点击：<https://dict.jiandongshicai.cn/polymerization>
