

《计算机英语高级词汇 · Video Equipment》

ASIC (Application Specific Integrated Circuit , 特殊应用积体电路)

ASC?Auto-Sizing and Centering????????????????

ASC?Anti Static Coatings????????

AGAS?Anti Glare Anti Static Coatings????????????

BLA?Bearn Landing Area????????

BMC?Black Matrix Screen????????

CRC?Cyclical Redundancy Check????????

CRT?Cathode Ray Tube????????

DDC?Display Data Channel????????

DEC?Direct Etching Coatings????????

DFL?Dynamic Focus Lens??????

DFS?Digital Flex Scan????????

DIC?Digital Image Control????????

Digital Multiscan II????????????

DLP?Digital Light Processing????????

DOSD?Digital On Screen Display????????

DPMS?Display Power Management Signalling????????

Dot Pitch????

DQL?Dynamic Quadrapole Lens????????

DSP?Digital Signal Processing????????

EFEAL?Extended Field Elliptical Aperture Lens????????????

FRC?frame Rate Control????????

HVD?High Voltage Differential??????

LCD?liquid crystal display????????

LCOS?Liquid Crystal On Silicon??????

LED?light emitting diode???????

L-SAGIC?Low Power-Small Aperture G1 wiht Impregnated Cathode???????????

LVD?Low Voltage Differential???????

LVDS?Low Voltage Differential Signal???????????

MALS?Multi Astigmatism Lens System???????????

MDA?Monochrome Adapter???????

MS?Magnetic Sensors?????????

Porous Tungsten?????

RSDS?Reduced Swing Differential Signal???????????????

SC?Screen Coatings???????

Single Ended?????

Shadow Mask?????

TDT?Timeing Detection Table?????????

TICRG?Tungsten Impregnated Cathode Ray Gun???????????????

TFT?Thin Film Transistor?????????

UCC?Ultra Clear Coatings?????????

VAGP?Variable Aperature Grille Pitch???????????

VBI?Vertical Blanking Interval???????????

VDT?Video Display Terminals???????????

VRR?Vertical Refresh Rate???????????
