Title: Millions share new Chinese character

???????duang~duang~duang~

The character 'duang' has taken China's internet by storm.

??“duang”?????????

The character "duang" is so new that it does not even exist in the Chinese dictionary. But it has already spread like wildfire online in China, appearing more than 8 million times on China's micro-blogging site Weibo, where it spawned a top-trending hashtag that drew 312,000 discussions among 15,000 users.

??“duang”????????????????????????????????800????????????????1?5000????31?2000????

"Duang" seems to be an example of onomatopoeia, a word that phonetically imitates a sound.

“Duang”????????????????????

The word resurfaced again recently after Chan posted it on his Weibo page. Thousands of users then began to flood Chan's Weibo page with comments.

Title:Duang, what does it mean?

???Duang???????

Duang is taking China by storm but no-one has any idea what it is.

Duang??????????????????

It has been searched more than 600,000 times on China's main search engine, Baidu.

????????????????60???

It can have many meanings, but people seem to be mainly using it as an adjective to give emphasis to the word that follows it.
