

《单词百科:pressurization是什么意思?pressurization怎么发音?pressurization的解释和用法》

英语单词pressurization是什么意思?pressurization怎么读?pressurization怎么发音?简答网为您整理了pressurization的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

pressurization怎么读

pressurization的读音:[pre ra 'ze n]

pressurization的意思

1、n.压力输送;挤压;气密;增压;

pressurization的双语例句

1、Over pressurization can result in a water discharge from the Relief Valve.

压力过大会导致水从安全阀排放出去.

2、Oxygen containers are equipped with pressure-relief devices to protect from over pressurization and possible rupture.

氧容器装备有减压装置,以便在过压和可能的破裂时保护容器.

3、Nitrogen containers are equipped with pressure relief devices to protect from over pressurization.

氮容器装备有减压装置,以便在过压和可能的破裂时保护容器.

4、Regulators and relief devices are intended to prevent over pressurization of the liquid container.

调整器和减压装置用于防止液体容器的过压.

5、The prosthesis is then inserted in a standard fashion into the BFPFA, allowing further pressurization.

然后将假体以标准作法插入到BPFA, 允许进一步的加压.

6、Safe and high performance pneumatic system, the pressurization speed can be adjusted freely.

安全、高性能的气动系统,可随意调整加压速度.

7、The seal box provides over pressurization protection for the absorber.

密封箱还起着对吸收塔过压保护的作用.

8、Dry helium is the only acceptable gas for external pressurization of the liquid container.

对于液体容器的外部加压,干燥的氦气是唯一可以接受的气体.

9、Using any other gas source for pressurization will cause potential ice plugs in the liquid container.

使用任何其它气源用于加压将导致在液体容器里可能的冰塞.

10、The technologies of hole stability and sealing by pressurization, cementing and reservoir protection were formed.

形成了井壁稳定与承压堵漏技术、固井技术和油气层保护技术。

11、In addition, the nitrogen rich gas is used for fuel tank pressurization during descent.

另外,在飞机降落过程中,富氮气体还可用于油箱增压。

以上是简答网为您整理的pressurization怎么读的相关信息,希望对大家有所帮助。查看更多关于pressurization的用法、pressurization的释义、pressurization的相关详情请点击：<https://dict.jiandongshicai.cn/pressurization>
