1、The drawing method of aiding projective transformations on H or V is presented.

作者介绍H、面上的辅助投影变换的原理及作图方法.

2、 There exists two pairs of congruent plane pencils between two projective space.

两射影空间场,属于每一对对应非固有点,存在两对对应合同面束.

3、 Objective To study the generalized projective synchronization of different chaotic systems.

目的研究异结构系统混沌广义投影同步.

4、 Aim A projective digital lensometer is presented.

目的描述一种投影式数字焦度计.

5、 The synthetic geometers were developing projective geometry.

综合几何学家们在发展射影几何学.

6、 Sections (especially sections with single cutting planes paralleling to principle projective planes).

剖视图 (以单一剖切面、平行于基本投影面的剖视为主).

7、 Connected graded algebra is the main object studied in noncommutative projective geometry.

连通分次代数是交换射影几何主要研究的具体对象之一.

8、 The invariant tensor under projective transformations of semi-symmetric metric-recurrent connections is obtained.

给出了半对称度量循环联络在射影变换下的不变张量.

9、 Lines are selected by neighborhood-rule or window-rule to compute projective invariants.

在所得直线族中按照邻近规则或者窗口规则挑选直线计算投影不变量.

10、 American mathematician noted for his work on projective geometry and topology.

不为射影改变的性质的几何学.

11、 We shall interrupt the history of projective geometry.

我们要把射影几何的历史断开.

12、In this paper, the problem of controlling projective synchronization in coupled partially-linear chaotic systems is studied.

研究了耦合部分线性混沌系统的投影同步控制问题.

13、Most thinking is reactive rather than projective.

思考问题多数情况是被动反应而不是主动想办法.

14、Telepathy can be either projective or perceptive, we either send or receive.

心灵感应可以投射或感知, 也就是说我们或者发送或者接收它.
