magneto怎么读

magneto的读音:[mæg ' ni:t ə ʊ]

magneto的意思

1、n.磁发电机;

magneto的相关词组

- 1、magneto alternator 永磁（式）交流发电机;
- 2、booster magneto 助力永磁发电机;

magneto的双语例句

1、In other study, also found that Ag can enhance the magneto-optical effect because of being polarized.

在一些其他的研究中也发现Ag被极化后导致薄膜磁光效应的增强.

2、The developments and present situation of magneto-optical materials rare earth (RE) iron garnets, were reviewed.

本文以稀土铁石榴石为主,综述了 磁光材料 的发展和研究现状、着重介绍了在光通信器件中的应用.

3、The more recently introduced magneto-telluric method has now come into more widespread use.

不久前出现的大地电磁法,现在应用得日益广泛.

4、The static problem of orthotropic magneto-electro-elastic media is resolved with the state space approach.

使用状态空间方程求解了多层正交各向异性磁电弹性介质的静态问题.

5、As a kind of controllable smart material, magneto-rheological (MR) fluid has gained the extensive attention.

磁流变液 作为流变学特性可控的一种智能材料,引起了学术界和产业界的巨大关注.

6、High power magneto guarantees the power supply to the vehicle.

采用大功率磁电机,输出能量大,整车供电充足.

7、Wiener experiment and it is concluded that the photon as electro photon and magneto photon.

驻波实验,认为光子应分为电光子和磁光子.

8、This paper describes the principle of the distributor used in dipmeter and magneto optical recorder.

本文叙述了一种用于地倾斜仪和地磁光记录仪的配电盘的原理.

9、Usually the magneto optical trap (MOT) is used to obtain the cold atoms from the

vapor.

报告了采用直接从铯蒸汽气室而不用磁光阱实现了光学粘团的方法.

10、Magneto-hydrodynamic (MHD) generation is a kind of technology with high efficiency and low pollution.

磁流体 发电是一种高效、低污染的发电技术.

11、Their magneto mechanical coupling behavior is systematically studied, both experimentally and theoretically.

本文从实验和理论上研究了铁磁材料的力磁耦合行为.

12、This paper has given magneto-hydrodynamic energy integration relationship at the condition of biadiabatical approximation.

本文得出了双绝热近似的磁流体力学能量积分关系式.

13、A sensor made of magneto-resistive material is then fitted in the housing just beyond that rim.

由磁阻材料制成的传感器正处于调速轮边缘的壳室里.

14、New type of magneto was developed for increasing starting torque and adjusting strokes.

开发新型永磁电机,以增大启动力矩,合理调节冲次.

15、According to the character of magneto-rheological fluids (MRF) , a type of MRF controlling valve was designed.

根据 磁流变液 的流变特性,设计了一种磁流变液控制阀.
