

《单词百科:metallized是什么意思?metallized怎么发音?metallized的解释和用法》

英语单词metallized是什么意思?metallized怎么读?metallized怎么发音?简答网为您整理了metallized的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

metallized怎么读

metallized的读音:[m ɪ 'tæla ɪ zd]

metallized的意思

1、[医]敷金属的，用金属处理的;

metallized的双语例句

1、CBB 61 metallized polypropylene film capacitor is used motorcapacitormotor running capacitor in 50 HZ AC single phase motors.

CBB61型金属化聚丙烯电容器可用于频率为50Hz的交流电源供电的单向电动机的运转和运转.

2、 Self-healing characteristics can enhance the reliability of metallized polymer film capacitors.

自愈特性能提高金属膜电容器的可靠性.

3、 In this paper, the problem of quartz glass metallized was solved by electroless alloy.

采用化学镀的方法解决电真空器件封接中的石英玻璃表面金属化问题.

4、 Further more as a tie coat over zinc silicate, metallized steel, and aluminium.

稀释40%可作为无机富锌涂层的粘结涂层, 同时也适用于合金钢材和铝材底材.

5、 The calculation and analysis software of metallized gel propellants thermodynamic characteristics were developed.

凝胶推进剂的热力特性主要取决于添加的胶凝剂的化学成分和含量.

6、 Application: This machine is designed for round metallized film capacitor.

产品用途: 适用于圆形金属化薄膜电容器芯子.

7、 What is the temperature range for metallized fibers?

金属衣层的光纤适用温度范围是多少?

8、 Metallized ceramic substrate modules, refrigeration film, ceramic pieces, ceramic pieces and metal welding , ozone film happen.

金属化陶瓷基片模块、 制冷片、 陶瓷件、 陶瓷与金属焊接件、 臭氧发生片.

9、 The application process, decoration effect and marketing development of metallized coatings for automobiles are introduced.

介绍了汽车用闪光涂料的施工工艺、 装饰效果和市场发展.

10、 Flat braided-aluminum straps are held in compression with stainless steel clamps to this metallized area.

用不锈钢卡具将这层铝带固定在金属化的区域.

11、Application: This machine is designed for winding metallized film cores of AC capacitor or power capacitor.

产品用途: 用于AC电容器或电力电容器卷绕金属化膜芯子.
