

《单词百科:semilethal是什么意思?semilethal怎么发音?semilethal的解释和用法》

英语单词semilethal是什么意思?semilethal怎么读?semilethal怎么发音?简答网为您整理了semilethal的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

semilethal怎么读

semilethal的读音:[sem 'li: l]

semilethal的意思

1、n.& adj.半致死(的);

semilethal的相关词组

- 1、semilethal gene 半致死基因;
- 2、semilethal mutation [医]半致死突变;

semilethal的双语例句

1、Semilethal Low Temperature and Low Temperature Adaptability of Tow Taxus Media Species

曼地亚红豆杉的半致死温度与对低温的适应性

2、The Relation Between the Membrane Protective System and Semilethal Temperature of Taxus Media Leaves as Temperature Fell

自然降温过程中曼地亚红豆杉叶片膜保护系统的变化与低温半致死温度的关系

3、The paper investigates the changes of the semilethal temperature and membrane protective system of Gardenia jasminoides Ellis leaves as temperature fell.

以人工栽培的栀子为材料，研究了其叶片低温半致死温度及膜保护系统随气温下降的变化。

4、The Relation Between Abscisic Acid, Gibberellic Acid and Semilethal Temperature of Gardenia Jasminoides Ellis Leaves as Temperature Fell

自然降温过程中栀子叶片脱落酸，赤霉素与低温半致死温度的关系

5、The purpose of this article is to study the semilethal low temperature of S.glabra Nakai leaves and the changes of water content and osmoregulation substances.

以草珊瑚为材料，研究了其叶片低温半致死温度与水分和渗透调节物随气温下降的变化。

6、Study of the Cold-Resistant Adaptability of Rhododendron fortunei during a Natural Drop in Temperature& The Relationship Between the Dynamic Changes of Water Content and Osmoregulation Substances and the Semilethal Low Temperature

自然降温过程中云锦杜鹃抗寒适应性研究&水分、渗透调节物的动态变化与低温半致死温度的关系

7、The results show that relative water content and the content of free water and starch of s.glabra Nakai leaves decrease while the content of Bund water, soluble suger soluble protein and proline inceease with the falling of the semilethal low temperature.

结果表明，低温半致死温度降低的同时，叶片相对含水量、自由水和淀粉含量下降，束缚水、可溶性糖、可溶性蛋白和脯氨酸含量增加。

以上是简答网为您整理的semilethal怎么读的相关信息，希望对大家有一定的帮助。查看更
