photodetachment的意思

1、n.光电分离，光致分离;

photodetachment的双语例句

1、The results show that the metal surface has great influence on the photodetachment process.

结果表明金属面对光剥离过程具有重要的影响。

2、Research on Interaction of Photodetachment and Scattering Between Atomic Oxygen and Low Energy Electron

慢电子与氧原子之间相互作用&光分解和散射的研究

3、Analyzing the photodetachment cross section of H⁻ in strong external fields

强外场中H⁻-光剥离截面的分析

4、The general relationship between the closed orbits and the photodetachment cross section is given.

给出了闭合轨道和光剥离截面之间的一般关系。

5、Photodetachment cross section of H in strong electric and magnetic fields& Semiclassical closed-orbit theory

强电场和磁场中H⁻的光剥离截面&半经典闭合轨道理论

6、This study provides a new understanding on the photodetachment process of H⁻ in the presence of a metal surface.

这一研究对于分析H⁻在金属面附近的光剥离过程提供了新的理解。

7、By using the closed orbit theory, the photodetachment cross section of H⁻ near a metal surface is derived and calculated.

利用闭合轨道理论，我们推导和计算了H⁻在金属面附近的光剥离截面。
