

《单词百科:catechols是什么意思?catechols怎么发音?catechols的解释和用法》

英语单词catechols是什么意思?catechols怎么读?catechols怎么发音?简答网为您整理了catechols的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

catechols的意思

1、儿茶酚类;

catechols的双语例句

1、Dopa is produced by the hydroxylation of tyrosine, and it subsequently converts to oxidized catechols and their derivatives by a series of enzymes, which lead to tanning, melanization and immunity.

酪氨酸在酶的作用下羟化为Dopa，Dopa再在一系列酶的作用下转化为儿茶酚类及其衍生物，并且参与到鞣化与免疫黑化中。

2、Evaluation of Catalytic Activity on Hydroxylation of Phenol For Catechols

苯酚羟基化制邻苯二酚催化剂的活性评价

3、Determination of catechols based on multi-walled carbon nanotubes/ chitosan multilayers modified glass carbon electrodes

基于多壁碳纳米管/壳聚糖多层膜修饰玻碳电极邻苯二酚的测定

4、Protective effect of chelating agents of catechols amino carboxylic acid on radiation injury induced by radiothorium in mice: prompt administration

邻苯二酚氨基酸螯合剂对钷内污染早期给药效果

5、An amperometric membrane electrode with selective response to catechols is constructed by immobilizing banana pulp tissue slices at an O₂ electrode.

本文将香蕉肉浆组织固定于氧电极上研制成对儿茶酚类化合物具有高选择性的香蕉组织电极。

6、CATALYZED OXIDATION BY RHUS VERNICIFERA LACCASE . On the laccase-catalyzed oxidation of catechols containing tert-butyl group

漆树漆酶的催化氧化作用& .含叔丁基的儿茶酚类底物的漆酶催化氧化

7、Tyrosinase (Tyr) catalyzes ortho-hydroxylation of monophenols to catechols (phenolase activity) and oxidation of catechols into o-quinones (catecholase activity) with high efficiency and selectivity under mild conditions.

酪氨酸酶在温和条件下能高效、高选择性实现单酚的邻位羟化（单酚酶活性）以及氧化邻二酚为邻二醌（儿茶酚酶活性）。

以上是简答网为您整理的catechols怎么读的相关信息，希望对大家有一定的帮助。查看更多
