

《单词百科:DRD是什么意思?DRD怎么发音?DRD的解释和用法》

英语单词DRD是什么意思?DRD怎么读?DRD怎么发音?简答网为您整理了DRD的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

DRD的意思

1、abbr.Design Requirement Drawing 设计要求的图纸;

DRD的双语例句

1、 Conclusion: The results are uncertain whether the DRD 2、 DRD 3、 DRD 4、 DAT 1、 COMT 、 5-HTR _ 2 A 、 5-HTT gene are associated with obsessive compulsive spectrum disorders.

结论: 未能验证DRD2、 DRD3、 DRD4、 DAT1、 COMT、 5-HTR2A、 5-HTT基因与OCSDs的连锁关系,但亦不能排除这些基因与OCSDs的相关性.

2、 Objective To analyze the clinical characteristics of dopa-responsive dystonia (DRD

).

目的 分析对多巴反应性肌张力障碍 (DRD) 的临床特点.

3、 Objective To explore the pathogeny, clinical characteristics and therapy of dopa-responsive dystonia (DRD).

目的探讨多巴反应性肌张力障碍 (DRD) 的病因、临床特点及治疗,加强对该病的认识.

4、 Objective To summarize the clinical characteristics of dopa-responsive dystonia (DRD).

目的 总结多巴反应性肌张力不全 (DRD) 的临床特征.

5、 Objective To study the clinical characteristics of patients with dopa-responsive dystonia (DRD).

目的研究多巴反应性肌张力障碍患者的临床特点.

6、 Objective To investigate the clinical characteristics and GCHgene mutations in patients with dopa-responsive dystonia (DRD).

目的探讨多巴反应性肌张力障碍 (DRD) 临床及GTP环化水解酶(GCH)基因突变特点.

7、 Objective The clinical features, diagnostic and therapeutic methods in dopa-responsive dystonia (DRD) were studied.

目的探讨多巴反应性肌张力障碍的临床特点、诊断和治疗方法.

8、 Objective To explore the clinical feature and treatment method of the dopa-responsive dystonia (DRD).

目的探讨多巴反应性肌张力障碍的临床特点及治疗.

9、 Objective To explore the clinical feature and treatment method of the dopa responsive dystonia (DRD).

目的 探讨多巴反应性肌张力障碍的临床特点及治疗.

10、 Conclusions Clinical diversity and diurnal fluctuation are the characteristics of DRD.

结论 DRD患者具有症状多样及日间波动的特点.

11、 Objectives To investigate the DRD 2 genetic susceptibility to essential tremor (ET) in Chinese.

目的 探讨多巴胺D2受体基因多态与ET 遗传 易患者.

12、 Conclusion : The polymorphism of DRD 2 gene at TaqI site may have no effect on TD.

结论 DRD2基因TaqI多态性可能与TD的发生无关联性.

13、 Conclusion The clinical manifestations of DRD are various and they are closely correlated with age.

结论多巴反应性肌张力障碍临床表现呈多样化,临床表现与年龄密切相关.

14、 CONCLUSION: GCH 1 gene mutation is only one of reasons to the DRD patients onset.

结论: GCH-1 基因突变只是部分DRD患者的发病原因.

15、 Objective : To investigate the clinical characteristics and mutations of GCH I gene of patients with DRD.

目的: 研究DRD患者的临床特点和GCH基因突变.
