### CCTV9英语新闻：舒马赫已脱离生命危险

#### Formula One great no longer in danger

Formula One great Michael Schumacher, is out of danger. The good news came from another former Formula One driver Philippe Streiff.

Streiff visited the hospital in Grenoble, where Schumacher is receiving treatment. He told the press a surgeon says Schumacher was in a serious condition, but his life is not in danger anymore. Schumacher has been in a medically induced coma since Sunday, when he fell while skiing and struck his head on a rock. He is known affectionately as "Schumi" by fans, and is the most successful F1 driver in history, racking up a record 91 race wins. He retired in 2012.
