《申根签证须录生物识别数据》

正计划去欧洲旅游的童鞋注意啦！申根签证将于10月12日启用签证信息系统(VIS)，申请申根签证时将被要求提供生物识别数据(biometric data)。

[Photo/China Daily]

???????????

Biometric data and information provided on the visa application forms will be stored in (the Schengen Area's Visa Information System)VIS' central database for 59 months.

??59???

First-timers will have to apply in person at consulates or external service providers to give fingerprints and a digital photo.

??????????????????????????????????

??????????????????????(frequent

travelers)??12?????(children younger than 12)??????????????(people who are physically unable to provide fingerprints)?

????????????????????????????????(Schengen states)???????????????(decisions about entry)?

????????????????????????????(identity theft)???????(false identifications)??(denials)?

The VIS will simultaneously begin operating in all Schengen countries' consulates in China, Japan, South Korea and Mongolia.

????????????????????????????????
