

《单词百科:lithology是什么意思?lithology怎么发音?lithology的解释和用法》

英语单词lithology是什么意思?lithology怎么读?lithology怎么发音?简答网为您整理了lithology的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

lithology怎么读

lithology的读音:[l i d i]

lithology的意思

1、n.岩石学，岩性;

lithology的近义词

1、petrology n.岩石学;

lithology的双语例句

1、 Information of lithology, sediment structure and crack are gotten from imaging log measure information.

利用这些测量特性可以得到岩性、沉积构造特征和裂缝等信息.

2、 The main controlling factors of reservoir developing are lithology , lithofacies and ancient weathering crust karstification.

储层发育的主要控制因素为岩性和岩相、古风化壳岩溶作用.

3、 It is crucial to conform the formation circumstance and lithology characters of marine source rock.

尽快确定海相烃源岩的岩性特征和形成环境是海相油气勘探的重大课题.

4、 The physical properties of lithology exist explicit regular pattern , illustrating the control action of sedimentary facies.

沉积相对储集物性的控制表现在随岩性变化,储层孔渗性能存在明显的变化规律.

5、 A new lithology identification method based on axial amplitude modulation signal of drill string is proposed.

提出了一种利用钻柱轴向振动调幅信号实现岩性识别的方法.

6、 Layer bound characteristic of the mineral ore controlled by stratum and lithology being obvious.

矿体受地层和岩性控制,具有明显的层控特点.

7、 The lithology of deep volcanic reservoir in Xingcheng area of Xushen gas field is complex.

徐深气田兴城地区深层火山岩储层岩性复杂、储层流体多变、属于特低孔隙度、特低渗透性储层.

8、 What lithology is this interval?

这是一段什么岩性的地层.

9、 I think it is necessary to do a thin section analysis to determine the lithology.

我认为需要观察薄片才能确定岩性.

10、 It has the following characteristics complex lithology and complex hole and having difficulty in computing reservoir parameters.

其储层具有岩性多样、储层孔隙复杂、测井参数确定难等特点。

11、 There is a close correlation between contour lines and lithology.

等值线的外形和岩性吻合的很好。

12、 Some changes in reservoir lithology and physical properties usually reflect in seismic wave form characteristics.

储层岩性、物性的变化往往表现为地震波形特征的差异,地震波形特征分析是岩性预测、油气预测的重要手段。

13、 Lithology recognition takes main important role in gas and oil development.

岩性识别在油气勘探开发中占据重要的位置。

14、 The lithology and structure traps habitat ed in the center of depression was the best trap.

坳陷中心分布的火山岩岩性、构造圈闭是最有利成藏的圈闭。

15、 The change of lithology is the main factor for the variation of various log responses.

岩性变化是影响各种测井曲线响应特征变化的最主要因素。

16、 However , the reservoir is characterized by high lithology, high clay content and low resistivity.

该油藏单元具有岩性细,泥质含量高,油层低电阻的特征。

17、 To of the bottom gravel layer , its distregulation and lithology are analyzed and studied.

第四纪底砾层直接覆盖在谢桥煤矿煤系地层之上,其隔水性能影响到防水煤柱的合理留设。

18、 The sediment thickness and lithology are variable.

富县组沉积厚度变化大,岩性差异明显,岩相复杂。

以上是简答网为您整理的lithology怎么读的相关信息，希望对大家有一定的帮助。查看更多关
