lithotripsy的读音:['la tr ps]

lithotripsy的意思

1、n. (对肾结石等的)震波碎石;

lithotripsy的双语例句

1、Objective : To investigate the clinic effects of ureteroscopic lithotripsy in treatment of urethral calculi.

目的探讨输尿管镜气压弹道碎石术治疗尿路结石的临床疗效。

2、 Objective To compare the effect of nephrolithotomy with pyelolithotomy plus ballast lithotripsy anatrophic renal staghorn calculi.

目的比较肾盂切开气压弹道碎石与肾实质切开取石术治疗无肾萎缩巨大肾结石的效果。

3、 Conclusions : Transureteroscopic holmium laser lithotripsy is an effective and safe method for ureteral calculi.

结论经输尿管镜钬激光碎石是一种有效、全的腔内碎石方法。

4、 The key of extracorporeal lithotripsy is its positioning accuracy.

体外碎石,关键在于定位精确。

5、 Objective To increase stone-breaking efficiency by improving waterway system of extracorporeal shock wave lithotripsy.

目的:通过对体外冲击波碎石机水路系统改进提高碎石效率。

6、 How successful is extracorporeal shock wave lithotripsy?

如何成功的体外冲击波碎石术?

7、 Methods A total of 20 pregnant women with ureteral calculus underwent holmium laser lithotripsy through ureteropyeloscopy.

方法采用经输尿管镜下钬激光碎石术治疗孕妇输尿管结石20例。

8、 Shock wae lithotripsy, ureteroscopic stone extraction , and percutaneous nephrolithotomy do not appear to impair renal growth.

结论:体外冲击波碎石术,输尿管镜检取石术,以及经皮肾镜取石术并不影响肾脏发育。

9、 Objective To evaluate the practical value of ultrasound locatization in percutaneous nephroscope ultrasonic lithotripsy.

目的:探讨经皮肾镜气压弹道联合超声碎石术围术期的护理方法。

10、 Objective : To evaluate cause analyzing and handling of calculus migration in ureteroscope pneumatic lithotripsy.

目的: 探讨输尿管结石输尿管镜气压弹道碎石过程中结石上移的原因及防止对策.

11、 The initial treatment method was shock wave lithotripsy and 80.3 % (57 ureters).

初次治疗用冲击波碎石术的患者有80.3% (57条输尿管).

12、 To probe the therapeutic experience of transurethral lithotripsy endoscopic incision of ureterocele.

目的探讨输尿管囊肿经尿道腔镜下囊肿内切开手术治疗经验.

13、 Really big rock through surgery Treatment , in vitro, or ultrasonic lithotripsy.

真是石头特别大的可以通过手术治疗, 或者体外超声波碎石.

14、 Conclusions: Ureteroscopic electrokinetic lithotripsy was safe and effective method for treatment of ureteral stones.

结论: 输尿管镜下电子动能碎石术是治疗输尿管结石的一种安全、疗效确切的方法.

15、 Methods 10 cases of renal calculi were treated by mPCNL with ureteroscopic holmium YAG laser lithotripsy.

方法采用经皮肾穿刺下对10例肾结石患者行输尿管镜钬激光治疗.
