

《单词百科:immunosuppression是什么意思?immunosuppression怎么发音?immunosuppression的解释和用法》

英语单词immunosuppression是什么意思?immunosuppression怎么读?immunosuppression怎么发音?简答网为您整理了immunosuppression的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

immunosuppression怎么读

immunosuppression的读音:[, ɪ mjun ə ʊ s ə ' pre ʃ n]

immunosuppression的意思

1、n.抑制(生物体的)免疫反应;

immunosuppression的双语例句

1、Conclusion: Cyclophosphamide may causes immunosuppression through the induction of apoptosis of thymocyte.

结论: 环磷酰胺的免疫抑制作用可能是通过诱导免疫细胞凋亡而产生的.

2、CONCLUSION anti-inflammatory , anti-oxidant, immunosuppression effect of Rosmarinic acid is significant and method is discussed.

结果迷迭香酸抗炎, 抗氧化、免疫抑制等作用显著,并探讨了作用机理.

3、Adjustments in immunosuppression therapy should be considered for patients who develop BK virus-associated nephropathy.

对于发生BK病毒肾病的患者,应考虑调整免疫抑制治疗.

4、This type of rejection can occur at any time following transplantation when immunosuppression is diminished.

可发生于肾移植的任何时候,尤其当免疫抑制剂减弱的时候.

5、Unfortunately, therapeutic immunosuppression frequently causes complications from bacterial, viral , fungal and parasitic infections.

可惜的是, 治疗用的免疫抑制法频繁的引起细菌、毒、菌和寄生物感染的并发症.

6、Alemtuzumab, a humanized anti-CD 52 antibody, has shown promise in tolerogenic induction protocols, requiring minimal maintenance immunosuppression.

阿仑单抗, 一种人源性抗-CD52抗体, 在免疫耐受诱导方案中效果显著, 需要最少的免疫抑制维持药物.

7、Conclusion: These experimental observations demonstrate the potential of immunosuppression to reactivate after resolution of infection.

结论: 这些实验观察说明,免疫抑制有激活已经控制的HB感染的潜在可能.请神农草版主按中英文对照格式发贴.

8、Immunosuppression for immunologically high-risk renal transplant patients usually antithymocyte globulin induction with triple drug maintenance therapy.

肾移植免疫高危患者的免疫抑制方案通常是予抗胸腺细胞球蛋白诱导免疫抑制,然后以三联免疫抑制药物维持治疗.

9、Objective : To observe the immune regulating effect of SPS in normal mice and mice with immunosuppression.

目的: 观察海藻硫酸多糖(SPS)对正常小鼠和免疫低下小鼠免疫功能的调节作用.

10、 Little is known about the effects of immunosuppression on patients with hereditary nonpolyposis cancer (HNPCC).

免疫抑制对遗传性非息肉性结直肠癌 (HNPCC) 病人的影响了解很少.

11、 Objective : To investigate the effects of immunosuppression treatment on peripheral nerve injury and regeneration in rats.

目的: 探讨免疫抑制治疗对周围神经损伤再生的影响.

12、 Conclusion 1 . FK 506 + MMF and FK 506 + MMF + Pred both could provide effective immunosuppression.

结论1.FK506+MMF和FK506+MMF+Pred均有很强的免疫抑制效应.

13、 Antibodies allow the subsequent reduction or elimination of other agents to minimize overall immunosuppression.

这些诱导的抗体从而能够减少或避免其他的药物的应用,从而降低总的免疫抑制程度.

以上是简答网为您整理的immunosuppression怎么读的相关信息,希望对大家有所帮助的帮助。查看更多关于immunosuppression的用法、immunosuppression的释义、immunosuppression的相关详情请点击：<https://dict.jiandongshicai.cn/immunosuppression>
