

Here are five lessons the Chinese can teach Americans about smartphones:

????????????????????

1.Messaging apps as operating systems

????????????????????

??MIUI????????????????“??
”????????????——????????????

5. Phones are TVs

??????

In China, phones aren't second-class citizens when it comes to watching shows and movies.

????????????????

The best stuff is mostly available to stream online. Services like Youku Tudou, iQiyi and Tencent Video convinced many piracy-stricken content owners to join, rather than fight, the demand for online video by making it legitimate and getting paid for it through video advertisements. If you pay, you watch without ads.
