

《单词百科:sequences是什么意思?sequences怎么发音?sequences的解释和用法》

英语单词sequences是什么意思?sequences怎么读?sequences怎么发音?简答网为您整理了sequences的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看一看吧!

sequences怎么读

sequences的读音:[si:kw nsiz]

sequences的意思

1、n.后果(sequence的名词复数); (纸牌中的) 顺牌;有关联的一组事物; (电影中表现同一主题或场面的) 一组镜头;

sequences的相关词组

1、 arithmetic sequence 等差数列;

- 2、 arithmetic progression sequence 算术级数
- 3、 a sequence of 一系列的
- 4、 geometric sequence 几何序列;
- 5、 geometric progression sequence 几何级数序列
- 6、 in sequence 顺次 , 挨次;
- 7、 pairwise sequence alignment 以成对排列的顺序排列
- 8、 sequence number 序号;
- 9、 bootstrap sequence [计] 引导序列;
- 10、 sequence alternator 序列交流发电机;
- 11、 sequence of switches 开关投入程序;
- 12、 built-up sequence 组合顺序;
- 13、 build up sequence 熔敷顺序;
- 14、 keying sequence 密码序列;
- 15、 coded sequence 编码序列;
- 16、 bounded sequence 有界序列;
- 17、 cyclical sequence 商业循环序列;
- 18、 cropping sequence 作物轮种次序;
- 19、 sequence checking 序列校验 , 时序检验;顺序检验;
- 20、 convergent sequence 收敛序列;

sequences的近义词

- 1、 chain n.链条;手铐;约束;一连串;连锁店;
- 2、 cycle v.骑自行车;

3、series n. 一系列;连续;串联;

sequences的反义词

1、severance n. 切断;断绝;割断;离职金;

sequences的双语例句

1、The nitrogen components of amino acids are not channeled into well-defined metabolic sequences.

氨基酸的氮成分未被导入确定的代谢顺序中去。

2、The introns are cut out by processing enzymes in the nucleus and the exons (coding sequences) ligated together.

核内的加工酶切下内含子,同时外显子 (编码序列) 连接在一起。

3、The holoenzyme recognizes specific nucleotide sequences on the DNA duplex (promoters).

全酶还能识别DNA双链分子上的特定核苷酸序列 (起动基因)。

4、We shall study a very particular kind of sequences, called convergent sequences.

我们将研究称为收敛数列的很特别的一类数列。

5、Specific mRNA sequences can be enriched for by preparing the RNA from subcellular fractions.

从亚细胞部分制备RNA,可使专一的mRNA序列的丰度提高。

6、These fluctuations control the distribution of the sequences.

这些海平面的浮动控制了沉积层序的分布。

7、Generating functions are an ideal tool for studying sequences defined by recurrence.

母函数是研究用递推关系来确定的函数的最理想工具。

8、We find the points are by no means distributed at random, but instead form definite sequences.

我们将会看到,这些点子决非随机分布,而是形成确定的星序.

9、Sequences of rock units are incompletely known.

岩石单元的层序了解得不完全.

10、We have a discussion of how they behave for exact sequences.

我们讨论了它们在正合序列中的动态.

11、Heterochromatin has shown to be composed largely of short repeated polynucleotide sequences.

异染色质大部分是由短而重复的多核苷酸序列所组成的.

12、Again, we attach no meaning to these sequences.

但是,我们并未涉及这些序列的意义.

13、Repeated sequences are often present in the genome.

基因组内常常有重复性序列.

14、The repetition commonly involves specific sequences of lithologies.

这种重复通常包含特定的岩性顺序.

15、Nucleotide sequences homologous to oncornaviruses DNA products have been observed in human leukaemic cells.

在人白血病细胞中,已经观察到与肿瘤毒病DNA产物相同的核苷酸序列.
