

## 《单词百科:hybridization是什么意思?hybridization怎么发音?hybridization的解释和用法》

英语单词hybridization是什么意思?hybridization怎么读?hybridization怎么发音?简答网为您整理了hybridization的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

### hybridization怎么读

hybridization的读音:[ ha br da 'ze n]

### hybridization的意思

1、n.杂交，杂种培植，配种;杂化;

### hybridization的近义词

1、cross v.穿越;渡过;交叉;画十字;划横线于;反对;否定;横传;使杂交;

- 2、crossbreeding n.杂交育种;
- 3、crossing n.横渡;交叉点;十字路口;渡口;安全通行处;人行横道;过境处;穿越;
- 4、hybridisation n.杂交, 杂种植, 配种;
- 5、hybridizing v. (使)杂交( hybridize的现在分词 );

### hybridization的双语例句

- 1、The asexual hybridization technology is well developed after several years of trials.

无性杂交技术经过几年的发展已经逐渐成熟了.

- 2、That cell hybridization can be used to dissect regulatory mechanisms controlling gene expression in eukaryotic cells.

杂交细胞能被应用于剖析真核细胞中控制基因表现的调节机理.

- 3、Objective To evaluate the effect of comparative genomic hybridization ( CGH ) in lymphoma.

目的评价比较基因组杂交 ( CGH ) 技术在淋巴瘤研究中的应用价值.

- 4、A major barrier to interspecific hybridization is sterility in the F 1 progeny.

种间杂交的主要障碍是F1代的不育性.

- 5、Interspecific hybridization of nucleic acids is a method of this type currently being developed.

核酸的种间杂交便是当前正在发展的这样一种方法.

- 6、Hybridization is a basic experimental technology in the study of nuclear acid.

杂交是核酸研究中一项最基本的实验技术.

- 7、The unique chemical makeup provides PNA with unique hybridization characteristics.

PNA独特的化学组成使其具有特异的杂交性能.

- 8、Methods: Use in situ hybridization and patch clamp techniques.

方法: 采用原位杂交和膜片钳观察NMDA受体的数量和功能.

9、 This paper introduces a kind of photoelectric hybridization measuring process.

本文介绍了一种光电混合测定方法.

10、 The chromosome in situ hybridization is an important part in modern biotechnology.

染色体原位杂交技术是现代生物技术的重要组成部分.

11、 Methods: Immunofluorescence , immunochemistry, electron microscopy and in situ hybridization were used.

方法: 间接免疫荧光、免疫组化、透射电镜和原位杂交.

12、 The potential of graft hybridization in fruit breeding are also discussed.

还讨论了嫁接杂交在果树育种中的重要意义.

13、 It is also true, however, that hybridization effects are important.

然而杂化效应是重要的, 这一点也是真实的.

14、 Methods: Non-radiative prober is used in hybridization in situ.

方法 非放射性探针原位杂交法.

15、 Somatic cell hybridization is technique.

体细胞杂交是一种技术.

以上是简答网为您整理的hybridization怎么读的相关信息, 希望对大家有一定的帮助。查看更多关于hybridization的用法、hybridization的释义、hybridization的相关详情请点击: <https://dict.jiandongshicai.cn/hybridization>
