????????????

???Switch the heating on I'm cold!

(???Oxford Advanced Learner's English-Chinese Dictionary)

???Central heating is a heating system for buildings. Air or water is heated in one place and travels round a building through pipes and radiators.

(???Collins COBUILD Advanced Learner's Dictionary 5th Edition)

???The first of October is "central heating day", when many people switch on their radiators for the winter. Central heating is just another mod-con of contemporary living, but it's done much more than warm us up.

(???BBC???????http://news.bbc.co.uk/2/hi/uk_news/magazine/8283796.stm)

???The indoor temperature can also be modified using a monitoring system similar to central heating.

(???CNN???????http://edition.cnn.com/2015/04/08/tech/water-house-matyas-gutai/index.html)

???Senators also wanted to offer rebates to higher-income households, seniors living on Social Security and disabled veterans and \$1 billion in heating assistance to help lower-income people pay their heating bills.
