

## 《五角大楼公布中国国防开支报告》

??????????????

The Pentagon has released its annual report on the Chinese military with the usual narrative that mainly focuses on China's defense spending increases.

The report says China has continued more than two decades of sustained annual defense spending increases, which aims to improve China's capabilities, such as advanced intermediate- and medium-range conventional ballistic missiles, anti-ship cruise missiles, counter-space weapons and offensive cyber capabilities.
