

## 《单词百科:AECA是什么意思?AECA怎么发音?AECA的解释和用法》

英语单词AECA是什么意思?AECA怎么读?AECA怎么发音?简答网为您整理了AECA的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

### AECA的意思

1、abbr.Anglican and Eastern Churches Association 英国国教及东正教协会;anti endothelial cell autoantibody 抗内皮细胞自身抗体;anti-endothelial cell antibody 抗内皮细胞抗体;

### AECA的双语例句

1、Conclusion AECA might be helpful for differentiating SLE and ITP.

结论AECA的测定对鉴别ITP和SLE有显著的临床意义.

2、Methods Serum AECA and ACA were detected by ELISA in 168 patients with vascular endothelial cell injury diseases.

方法建立ELISA法检测AECA，采用ELISA法测定ACA，分别检测168例血管内皮细胞损伤性疾病患者中2种抗体的水平。

3、Objective To establish a routinely used immuno-fluorescence method for detecting anti-endotheliocyte antibody ( AECA).

目的建立可以常规应用的免疫荧光法检测血清中抗内皮细胞抗体（AECA）。

4、Conclusion AECA and ACA are related to the development and progress of vascular endothelial cell injury diseases, AECA and ACA are independent each other.

结论AECA和ACA与血管内皮细胞损伤性疾病有一定的相关性。AECA与ACA无相关性。

5、Anti-endothelial cell antibodies ( AECA) are associated with disease activity of propylthiouracil induced antineutrophil cytoplasmic antibody ( ANCA) positive vasculitis

抗内皮细胞抗体与丙硫氧嘧啶引起的抗中性粒细胞胞浆抗体阳性小血管炎病变活动相关

6、Objective To study the relationship between anti-endothelial cell antibodies ( AECA), anticardiolipin antibodies ( ACA) and vascular endothelial cell injury diseases and the significance of the autoantibodies.

目的探讨抗内皮细胞抗体（AECA）及抗心磷脂抗体（ACA）与血管内皮细胞损伤性疾病的关系及意义。

7、Conclusion The immunity damaged mediated by AECA was exist in the develop or arise through evolutionary processes of DN, and it may be a important factor for the development of DN.

结论在DN的发生过程中存在着以AECA介导的免疫损伤，可能是DN发生发展的一个重要因素。

8、Conclusion: With the change from normal retina to DR, the positive rate of IgG AECA in serums gradually increases, which means that AECA has inherent relationship with DR.

结论：随着由正常眼底向DR的转变，血清IgG型AECA阳性率呈增高趋势，表明AECA与DR存在内在关联。

以上是简答网为您整理的AECA怎么读的相关信息，希望对大家有一定的帮助。查看
