

《单词百科:myelin是什么意思?myelin怎么发音?myelin的解释和用法》

英语单词myelin是什么意思?myelin怎么读?myelin怎么发音?简答网为您整理了myelin的解释、用法、例句、词组等相关学习资料。下面跟小编一起来看看吧!

myelin怎么读

myelin的读音:[ma l n]

myelin的意思

1、n.髓磷脂;

myelin的近义词

1、medulla n. (拉丁语) 骨髓;髓质;

2、myeline 梅琳

myelin的双语例句

1、 Teased fiber analysis showed an increased frequency of axonal degeneration and regeneration as excessive myelin irregularity.

单纤维分析显示轴突变性和再生频率增加,并且过度髓鞘不规则.

2、 And wide gaps appeared between axon and myelin sheath, and between layers of myelin shea.

可见轴突与髓鞘间及髓鞘板层间形成宽大的裂隙.

3、 Malnourished children have smaller brains, fewer neurons and synapses, shorter dendrites and less myelin.

营养不良的儿童有规模较小的脑,少的神经元和突触的,短的树突少髓鞘.

4、 In MS, the myelin coating of nerve fibers becomes inflamed and scarred.

多发性硬化的主要病理改变是神经纤维表面的髓鞘发生炎症,并形成瘢痕.

5、 An increase or decrease in this ratio is indicative of the integrity of myelin.

这个比率的增减是髓鞘完整性的重要指标.

6、 The changes of moisture in brain tissues and serum myelin basic protein (MBP) were observed.

结果实验组血清碱性蛋白及脑组织含水量较对照组低.

7、 The myelin was harder to see a faintly undulating fringe on the edge of the neurons.

髓磷脂是很难看到的.它就象模模糊糊的、起伏波动的饰缘镶在神经元的边缘上.

8、 The myelin has a weblike appearance in such preparations.

髓磷脂在此标本中呈网状外观.

9、 As the Little Group continued its lesson, I found myself myelin.

在小队员们继续上课的时候,我发现了我自己的髓磷脂.

10、 Objective : To induce the EAE model on Guinea pig with Myelin Basic Protein (

MBP).

目的: 用髓鞘碱性蛋白 (MBP) 诱导实验性变态反应性脑脊髓炎(EAE)豚鼠模型.

11、 Oligodendrocytes produce myelin insulation, crucial for the transmission of messages around the nervous system.

少突细胞设置髓磷脂屏障, 这一屏障对神经系统的信息传导很重要.

12、 To destroy or remove the myelin sheath of a nerve fiber, as through disease.

失去髓磷质(通过疾病等)破坏或移走(神经纤维)鞘中的髓磷质.

13、 Within that myelin, according to new research, lies the seed of talent.

在髓磷脂里, 根据最新资料研究, 它里面有天才的种子.

14、 That guy's a lot of myelin.

他说, “ 伍兹这家伙有许多髓磷脂. ”

15、 Lacking a myelin sheath. Used of a nerve fiber.

(神经细胞)由髓鞘质层覆盖.

16、 The signal characteristics probably result from dense gliosis and diminished myelin sheaths in the hemartomatous areas.

病变的信号特点很可能是因为错构瘤区域致密的胶质增生和髓鞘都是造成的.

17、 The researchers' experiments also identified specific molecules on myelin that triggered such repulsion.

实验还发现了髓鞘上的触发这种抑制(用)特殊分子.

18、 Most neurons are insulated by a myelin sheath formed by cells (Schwann cells) surrounding the axons.

大多数的神经元由一层包绕周围轴突的髓鞘 (其细胞现称施万氏细胞) 与外界隔绝.

以上是简答网为您整理的myelin怎么读的相关信息, 希望对大家有一定的帮助。查看更多关于myelin的
