

《韩国一直升机坠毁致5人死亡》

?????????5???

??

A firefighting helicopter has crashed in South Korea, killing all five fire officers onboard, including the pilot, and injuring a female student on the ground.

According to South Korean authorities, the chopper crashed in the city center of Gwangju, which is about 300 kilometers south of the capital Seoul. The helicopter was returning to its headquarters after a search mission for missing passengers from April's Sewol ferry disaster. Authorities are investigating the cause of the crash.
