

## 《新修图软件拯救被路人毁掉的照片》

Everyone wants to head home with the perfect collection of holiday pictures, but more often than not that is impossible.

每个人都想把完美的假期照片带回家，然而这多半是不可能的。

Places such as the Taj Mahal and the Eiffel Tower get millions of visitors every year, making them some of the busiest spots in the world.

??

So, unless you are willing to wake up at 3am, the likelihood is that any picture taken at a famous monument will also have a large number of tourists milling about in the background.

????????????3??

But a new piece of technology promises to make these problems a thing of the past.
