

《阿里巴巴携手惠普、英特尔，发布新型笔记本电脑》

导读:在杭州举办的2016阿里巴巴云栖大会上，阿里巴巴携手惠普和英特尔共同发布了HP YunOS Book，这款针对教育行业开发的笔记本，可以用于演示和教学。

China's e-commerce powerhouse Alibaba has released a new laptop computer in partnership with Hewlett Packard and Intel Corporation.

????????????????????????????????????

The computer, released at the ongoing Computing Conference 2016 in Hangzhou, capital of east China's Zhejiang Province, runs on Alibaba's own smart operating system YunOS, and will mainly be used in China's education sector and in offices.

????????????????????????????????????YunOS????????????????????

The computer will be used in cloud-based education and multimedia presentations. Governments in Zhejiang, Chongqing and Wuhan have inked cooperation deals to use the computer in their offices to boost efficiency.

??

Alibaba's YunOS system has been applied in a variety of areas, including wearable devices, automobiles and

smart phones.
