

《2030年我国人均预期寿命将达到79岁》

导读:经济发展了,人们的生活水平和健康状况也必须要跟着变好,本周二党中央和国务院联合发布了未来15年的健康蓝图规划,要在2030年的时候将我国人均预期寿命提高到79岁。

China wants to increase its citizens' average life expectancy to 77.3 by 2020 and 79 by 2030, up from 76.34 in 2015, according to a plan on health development spanning the next 15 years.

????15????????2015????????76.34????????2020????????77.3??2030????????79??

The "Healthy China 2030" blueprint, released Tuesday by the Communist Party of China (CPC) Central Committee and the State Council, includes 29 chapters that cover areas such as public health services, environment management, the medical industry, and food and drug safety.

????????????????"????2030"????????29????????????????????

The blueprint also noted that industrialization, urbanization, an aging population, environment and changes in lifestyle have created new challenges to people's health.

????????????????????????????????????

And it added that state-level strategies are needed to resolve "major and long-term health-related issues."
