2015????????????~

1. ?????????????????

5,000 runners have been told they fell short of completing a marathon by just 264m because of an organisational blunder.

????????5000????????????????????264?(???.....)

Runners in the Marathon of the North took the wrong route along part of the course in Sunderland because they were given the wrong directions.

????????“????”????????????????

Organisers said the marshalling error meant all but one of the competitors did not complete the full marathon.

??
