

《北方大部分地区将降温 最高降温幅度达到8摄氏度》

导读:本周日，据国家气象中心预报，未来两天西北、华北和东北等地区将迎来大幅度降温，部分地区最高降温幅度将达到8摄氏度，并伴有雨雪天气。

Most parts of north China will experience a rapid drop in temperatures together with snow or rain over the next two days, the country's meteorological authority forecast on Sunday.

??

Temperatures will drop in northwestern, northern and northeastern China, in some areas by as much as eight degrees Celsius.

??8????

Freezing wind is also expected to sweep across most parts of north China.

????????????????????????????

Snow or sleet will hit northeastern China, with heavy snow expected in Jilin province.

??

The center also forecast torrential rain in parts of Yunnan province, warning residents of landslides and mud-rock flows.
