

## 《ICRC发言人：Madaya形势令人心碎》

We're only able to see some pictures of suffering there. Reality could be much worse. The International Committee of the Red Cross is in charge of distributing the aid. An ICRC spokesperson told CCTV what he saw in Madaya.

"It's really heart-breaking to see the situation of the people. A while ago I was just approached by a little girl, and her first question was this - 'Did you bring food? Did you bring food? I hope you brought food to Foua, Kefraya, and to Madaya because we are really hungry,'" said Pawel Kryzsiak, ICRC spokesperson.
